25X1A MEMORANDUM FOR: [REDACTED] Headquarters Foreign Technology Division
(AFSC) TD-3, USAF

SUBJECT: Search for ABM Activity, Pechenga-Karnasok Area, USSR

REFERENCES: 1. Requirement TSR-105-68, 5 February 1968
2. NPIC Project H-199/64

1. A search of small scale KAMHOLE photography revealed no indications of ABM activity in the vicinity of Pechenga and Karnasok, bounded by 68-30-00N to 70-00-00N and 30-30-00E to 34-00-00E.

25X1D 2. Sixty percent of the search area was visible on photography of [REDACTED] with snow conditions prevailing. Approximately 30 percent
25X1D of the area was visible on photography of [REDACTED] with interpretation
25X1D limited by scattered clouds, haze and snow. The most comprehensive coverage
of the entire area was provided by 95 percent cloud free, clear photography of [REDACTED] and 99 percent clear snow covered photography of [REDACTED]. 25X1D

3. A listing of photography examined during this study follows:
